***Response to Amendment/Arguments***

1. This action is in response to amendment filed on Dec. 15, 2004.
2. Claims 17-20 have been added.
3. In view of Applicant's amendment, the objections to the specification and the drawings have been withdrawn.
4. In view of Applicant's amendment, the 35 USC § 112 rejection has been withdrawn.
5. Applicant's arguments (see page 10, last two paragraphs through page 11, line 5 and page 11, last paragraph through page 11, first paragraph) of the amendment filed Dec. 15, 2004, with respect to claims 1-17 have been fully considered and are persuasive. The rejections of claims 1-17 have been withdrawn.

***Allowable Subject Matter***

6. Claims 1-20 are allowed.

7. In addition to applicant's arguments, which have been found persuasive, the examiner further makes the following statement of reasons for allowance:

8. Regarding claim 4, prior art of record fails to teach or suggest, alone or in combination, a method for separating and extracting original signals from observed signals where multidimensional signals including the original signals are mixed, comprising, along with other limitations

- Performing separation processing on the observed signals that have undergone whitening based on a cost function having a monotonously increasing characteristic

While Hirsch (US 5,261,007) discloses a system that separates mixed signals, it does not teach the use of a monotonously increasing cost function. On the other hand, as Applicant argued, while J.-F. Cardoso and B.H. Laheld ("Equivalent Adaptive Source Separation," IEEE T. on Signal Processing, Vol. 44, No. 12, December 1996, pp. 3017-3030) teaches using an increasing cost function (Eq. 6 of page 3019) to solve the source separation problem, it is applicable only when a certain condition, namely when the sources all have a negative kurtosis, is satisfied. Success cannot be reasonably expected when employing this approach to solve the type of source separation problem that Hirsch's invention is intended for.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
